Hi!

575... Just a quick note to say I never lied to you and I never sent you emails from any account but mine, as me. You once said you would never believe anything about me unless you heard it from me; I hope that's still true. There is ~ ton more I wish I could say, but I can't right now. Soon, hopefully. IF you want to respond, you can write back to the address on the envelope. Your cousin Tony never sent the letter you wrote - only said he got one, so don't go through him anymore. 3-8-1... still, now and forever.
